

Date:

July 2016

Description:

ARB Summit Side Rails & Steps

Application:

2016+ Toyota 200 Series Land Cruiser

Part No. :

Refer To Product Table

Kit & Component Price:

Refer To Product Table

Availability Date:

July 2016

---

## Product Specification

### **ARB Summit Side Rails and Steps have been developed for the 2016+ Land Cruiser 200 Series.**

The 2016+ steps and rails include a number of features specifically developed for the new model. An additional front mount and step rail support has been developed for extra strength. Due to the shape of the chassis, a specific flat back u-bolt has been developed to reduce point loading on the chassis.

For those customers who don't have an ARB front bar or don't require a front rail, a return has been developed to enable fitment of a protection step without the fender rail.

The clamp offers a neat and practical solution to connect the 2.37 inch side rail to the upright of the ARB Summit Bar .

Two spacers are included in the fitting kit to allow for different tube lengths due to variances in bar to chassis tolerances. The clamp cover also allows for adjustment in the side rail to upright positioning. The step section is an anodised silver extrusion featuring front to rear ridges for grip. Extrusions are supplied with the front section selected.

The 2016+ Land Cruiser Rails & Steps are finished in a satin black powder coat finish, which is paint-ready for those who would like to color match the bars to the vehicle paint code color. A zinc rich primer is used for additional corrosion resistance.

## Features & Styling Characteristics:

- Vehicle specific design for the 2016+ 200 Series Land Cruiser .
- Registered design of styling and design components.
- Durable steel construction for maximum protection.
- Manufactured from mandrel bent 60.3mm x 2.6mm ERW tubing.
- Finished in durable black powder coat with the option to color match to vehicle color.
- Template provided for drilling of the central mount bolt (front rail section).
- Anodized extrusion supplied with the front section.
- Supplied with corrosion resistant fasteners.
- The step section 4415100 weighs approximately 66 lbs, front rail 4415110 weighs approximately 48.5 lbs, return 4415120 weighs approximately 15.4lbs.

## Anodized Step Extrusion:

A silver anodized extruded aluminium section with front to rear ridges is supplied with the front section selected.

The extrusion supplied with the front rail section is supplied as separate left and right handed sections. The protection step extrusion has the same front and rear profiles so can be fitted to either side.

## Side Rail Clamp:

Prominently featuring the ARB logo and manufactured from 30% reinforced Nylon plastic, the new side rail clamp slides over the side rail, allowing for fitment of aluminium spacers to adjust for varying vehicle chassis to bar fitment tolerances.

## PART NUMBERS & PRICING

Part Number	Description	Price
4415100	SUMMIT STEP SECTION 200 SER 2016+REQ 4415110/120	\$802.00
4415110	SUMMIT FRONT RAIL 200 SER 2016+ REQ 4415100	\$485.00
4415120	SUMMIT RETURN 200 SER 2016+ REQ 4415100	\$232.00

### ABOUT ARB

ARB Corporation Limited is Australia's largest and industry leading manufacturer and distributor of quality, 4WD vehicle accessories, with distribution in more than 100 countries worldwide. The company manufactures and stocks the worlds most respected and sought after 4x4 accessories.
