September 2016

---

## Product Specification

**With a need for keeping all your ARB air accessories in one place, an idea was born for a simple yet highly functional bag.** The case incorporates all the necessary areas to house inflation, deflation, gauges, hoses and general air accessories. Incorporating world renowned YKK zippers for durability and quality, abrasion resistant canvas, durable rubber handle and high-vis reflective tape, this ARB inflation bag won't let you down.

Built to keep your ARB air accessories neatly in the one place and secure even with the zipper open, each accessory can be quickly found.

The ARB Inflation Case also fits snugly in ARB Outback drawer systems keeping inflation/deflation gear well organized and at easy reach.

This bag extends the tradition of our orange topographical design recovery bags and is manufactured using heavy duty wear resistant canvas. The case features 3 standard and one extra-large Velcro locking sleeves on one side of the internal compartment and on the opposite side 2 mesh sleeves ready to house the ARB air hoses. The mesh side also features a zippered pocket for your smaller air accessories (valves, caps, chucks, connectors & sports tools). Bag size is 16" x 9.5" x 5".

## Inflation Accessory Fitment

The Inflation Case has been designed to fit the large range of ARB air accessories.
