Product Specification

Designed for the 2016+ Toyota Tacoma double cabs, the roof rack mounting kit accepts the Deluxe Roof Rack (part # 3800250), which measures 52x44 inches. The roof rack kit is finish in a Millennium Grey powder coat.

The roof rack mount kit has been designed to have four individual mount feet permanently mounted on the vehicle roof, using the factory OE roof rack attachment points. Longitudinal mount rails are attached with the ARB rack. This allows easy removal of the rack when not required.

The kit is precision made for a perfect fit, zinc plated and powder coated. Stainless steel fittings are used as well.

The current generation ARB Roof Rack has been around for many years, but its proven design for strength, durability and utility it has proven to be up to the demands of flawless performance needed by those who travel into remote areas. They are a great place to store bulky items like chairs, sleeping bags and tents.
