& Trade Rack #3800253

Part No. :  
3723010

Price:  
\$169.00

Availability Date:  
July 2017

---

## Product Specification

Designed for the second and third generation Toyota Tacoma Double Cab models, the roof rack mounting kit accepts the Deluxe Roof Rack (part # 3800250) and Trade Rack (part #3800253), both measure 52x44 inches. The roof rack kit is finished in the same Millennium Grey powder coat that all ARB roof racks receive.

The roof rack mount kit has been designed to have six individual mount feet permanently mounted on the vehicle roof, using the factory OE roof rack attachment points. Longitudinal mount rails are attached with the ARB rack. This allows easy removal of the rack when not required.

The current generation ARB Roof Rack has been around for many years, but its proven design for strength, durability and utility has shown itself to be up to the demands of those who travel into remote areas. These racks are a great place to store bulky items like chairs, sleeping bags and tents and accepts the ARB Intensity LED Light Bar.

The kit is precision made for a perfect fit and quick installation. The panels are zinc plated and powder coated, while stainless steel fittings are used, to ensure weather resistance.

**NOTE:**

The rack and mount kit add approximately 60 lbs to the roof of the vehicle and 7 inches to the height of the vehicle. For roof load carry capacity, please refer to manufacturers specification.
