# PRODUCT SPECIFICATION

## DESIGN & DEVELOPMENT:

Old Man Emu has now extended its range of geometry alignment components. Recommended for raised vehicles to reset axle location and geometry realignment, Old Man Emu's heavy duty adjustable panhard rods and trailing arms feature high strength 4140 alloy steel finished with a hard wearing black powder coat for optimum corrosion protection. Old Man Emu's products also boast premium bushing technology for improved performance and extended life.

Note: Old Man Emu panhard rods are off car adjustable, upper trailing arms are on car adjustable.
