

Date:

December 2015

Description:

ARB Commercial Bar

Application:

Toyota Hilux 2015 on Wide Body
4x4 and 4x2 Hi Rider

Part No. & Barcode :

3414580 - 9332018041913

Product Group:

015 Commercial Bull Bars

Fitting:

4 Hours

Availability Date:

Pilot Run due January 2016

Product Specification

ARB have designed and developed a Commercial bar for the Wide Body Hilux. Unlike the previous generation Hilux, the new 2015on model is offered in either a wide body or narrow body. This has been achieved with the sheet metal of the vehicle rather than an additional flare. Wide body models have an additional 40mm of track both front and rear.

Design features of the Hilux Wide Body Commercial bar include:

- Vehicle specific design for the wide body Hilux. A separate narrow body Commercial bar is being developed.
- ARB LED Clearance and turn signals included as standard.
- Fog light option available in ARB's traditional fog light surround.
- Extensive wing and centre protection panels included as standard.
- Outer 60.3mm tube designed to allow fitment of ARB Summit Side Rails and Steps.

Driving Light Mounts:

Mount holes are provided for fitment of a range of ARB Intensity, Bushranger and IPF 808, 800 and 900 series lights.

Pinning holes for ARB Intensity driving lights are included in the top pan of the Commercial bar.

Antenna Mounts:

Two aerial mounts are welded to the centre cross tube to allow fitment of UHF/AM radio and mobile phone aerials/antennas.

Hi-Lift Jack Points:

The Hi-Lift jack points are welded directly to the upright on either side and are designed to prevent the Hi-Lift jack from interfering with the face of the bar.
