

4X4 ACCESSORIES

NEW PRODUCT ADVICE

DESCRIPTION:

Air Locker differential cover

APPLICATION:

Dana 60 (Dana 30, 35 & 44 under development)

PART NO:

0750001

AVAILABILITY:

Now

FEATURES:

- High tensile nodular iron protects the differential and ring & pinion set from off road obstacles
- Computer optimised cross brace design increases the structural rigidity of the whole axle
- Additional housing strength helps keep the ring & pinion gears meshing on the flat faces of the teeth, greatly increasing ring & pinion life and overall maximum load strength
- Prolonged carrier bearing life due to extra support to the bearing alignment
- Approach/departure angle optimised by angled exterior surfaces
- Recessed high tensile cap screws (supplied) for protection against obstacles which might damage or loosen them
- Low profile drain plug design resists damage from obstacles
- Unique dipstick/filler cap design allows differential oil level to be adjusted for customised high driveline angles
- Combination of the high filler point and dipstick allows the oil to be checked for water contamination without having to drain the oil
- Top quality, high power neodymium magnets are used in both the drain plug and the dipstick to collect metallic wear particles as the vehicle moves
- Magnet location in the end of the dipstick allows the oil to be checked for tell-tale signs of internal damage
- Cover is powder coated, CNC machined, then clear coated for a durable, professional, long lasting finish, hardware is zinc plated
