FOR IMMEDIATE RELEASE

New ARB Dodge Sahara Bar *Late Model Dodge Sahara Bars Now Available*

Seattle, May 8/ ARB 4x4 Accessories/ -- Australian based four-wheel parts manufacturer, is proud to announce the expansion of their full size winch ready bumpers by releasing the new ARB 2006-2009 Dodge Sahara Bar.

Considering ARB's twenty-year history manufacturing both original equipment and aftermarket accessories for vehicles around the world, you can be sure to expect a customized mounting system and a sleek, yet functional Sahara Bar designed specifically to enhance the look and operation of your late model Dodge 1500, 2500 and 3500 pickups. ARB's latest Sahara bar design allows this bar to be offered in pieces so the customer can decide whether or not they would like to have just the lower section of the bumper that replaces the original or they can choose to install the chrome hoop top bar for even greater protection and styling.

Need more lighting? Optional fog lights can be installed into this bumper for even greater lighting performance. Don't plan to install a winch? A color matched included plate can be optioned to cover the winch opening.

The late model Dodge pickups feature a design where the grill is attached to the hood instead of the body, so ARB Engineers were confronted with the challenge of producing a bar which offered high levels of protection, while conveniently allowing the hood to be opened. This required additional clearance between the grill and the polished center tube which would result in the bumper sitting further forward, reducing the approach angle. To overcome this, the center tube is uniquely engineered to pivot forward, by simply pulling the release lever located beside the passenger side rubber buffer, allowing sufficient clearance to raise the hood, without compromising impact strength or appearance.

--Continued on the next page--

Constructed from premium sheet steel with a tapered wing design, this bar has been crafted for optimum strength and an improved angle. ARB's unique airbag compatible mounting system ensures both occupant and vehicle safety. A hard-wearing Millennium Gray powder coat finish completes the look of this stylish new bar.

As with all ARB Sahara Bars, the utmost attention to detail has resulted in a variety of built-in features including recessed indicators, optional recessed fog lamps, Warn Winch compatibility, Hi-Lift jacking points, driving light provisions and twin CB antenna mounting positions.

Other Key Features

- Suits Warn M8000/9000, XP9500, M12000, M15000, 12.0XE (Endurance)

Note: 12 & 15K winches require 3512050 wiring kit.

- Suits up to the 930 Series IPF Lights
- Mounting holes for IPF 840 Fog Lights in lower center pan
- Optional 6821201 ARB fog light kit
- Hi-Lift Jack points in the pan
- Heavy duty recovery eye bolts supplied
- Winch viewer cover panel supplied
- Optional polished center frame has latched pivoting mechanism for grill clearance

Part No.	Description	Retail
3952120 ¹	Dodge Ram Sahara Bar	\$1095.86
3552050 ¹	Required Fitting kit for 2006-2008 Dodge 1500	\$214.60
3552060 ¹	Required Fitting kit for 2006-2009 Dodge 2500, 3500	\$122.30
5100150 ¹	Buffer Kit without holes (Use when not fitting chrome tube)	\$116.67
5152010 ¹	Optional Chrome Tube Kit	\$259.74
5100140 ¹	Buffer Kit with holes (Use when fitting chrome tube)	\$116.67
6821201 ²	ARB Fog Light Kit	\$84.83
MD02 ³	Modular Driving Light Loom	\$81.97
