

NEW PRODUCT ADVICE

Description: Winch Bar

Application: Landrover Defender 90, 110, 130 1985 On

Part No: 3432300

Retail: \$1,036.37

Featuring a large 60mm top tube, the new Land Rover Defender bar is a complete redesign offering more modern styling. Unlike 'traditional' Land Rover bars, the new bar incorporates recessed Hi-Lift jacking points and integrated tow points along with upswept stepped wings, giving a more aggressive look. Due to variations that are found in individual vehicles, the mounting system has been redesigned to enable the fitter to position the bar in the best possible position before final assembly. Although designed primarily for 2009 on models, the bar will fit all Defenders from 1985 on.

Features:

- Larger 60mm diameter top tube
- Heavy Duty 47mm Diameter light mount tube
- 2x Hi-Lift jacking points in center pan
- Integrated tow point in Hi-Lift jack recess
- Factory style jack mounts in center pan
- Fits 800 & 900 series IPF lights
- 2x aerial mounts on top tube
- Fits Warn M12000, XDC9500, XP9500, XD9000

Note: Winch install kit P/N 3532070 required when fitting a winch
