

# NEW PRODUCT ADVICE

**Description:** Winch Bumper

**Application:** 1993-97 Land Rover Defender 90 & 110

**Part No:** 3932400

**Retail:** \$854.25

**ARB 4x4 accessories** is happy to announce a completely new design Land Rover Defender winch bumper that offers a more modern style but still retains traditional ARB strength and function. Although similar in appearance to a Sahara bar, the winch bumper features no option for fog lights or the alloy center tube.

Unlike 'traditional' Land Rover bars, the new bar incorporates recessed Hi-Lift jacking points and integrated tow points along with upswept stepped wings, giving a more aggressive look. Due to variations that are found in individual vehicles, the mounting system has been redesigned to enable the fitter to position the bar in the best possible position before final assembly.

Although designed primarily for 2009 on models, the bar will fit all Defenders from 1985 on.

## Features:

- 2x Hi-Lift jacking points in the center pan
- Integrated tow point in Hi-Lift jack recess
- Factory style jack mounts in the center pan
- Fits Warn winch models M12000, XDC9500, XP9500, XD9000
- Winch fit kit PN 3532070 required if fitting winch

**Availability Date:** Late September 2010
