FOR IMMEDIATE RELEASE

New Hummer H3 Rear Bumper

Match your stylish winch bumper with the new rear ARB bumper

Seattle, February 3 / ARB 4x4 Accessories/ -- ARB is excited to announce the release of the all new ARB rear bumper for the very popular Hummer H3. After months of research and development, and several trips to the Australian Outback, this rear bumper has been engineered to give you the years of performance, protection and styling you would expect from ARB.

Designed to replace the O.E. rear bumper assembly, the Hummer H3 ARB rear protection bumper offers superb protection to both the rear and sides of the vehicle as well as a greater departure angle. Two models are offered, one for vehicles with the optional factory flares, and one for vehicles without the optional flares.

Features include:

- 3mm laser cut steel construction
- Chassis mounted internal wing braces for extra strength
- Wheel recess with grip tape step pad for rear cargo and roof rack access
- Improved departure angles
- Retains factory recovery points
- Cut-out for re-fitment of O.E. recovery point
- Retains O.E. hitch receiver
- Black powder coat finish to match front ARB winch bumper
