FOR IMMEDIATE RELEASE

Rear AAM 11.5" 30 Spline ARB Air Locker ***for GM 2500/3500 2000-06 & Dodge Ram 2500/3500 2003-current***

Seattle, August 25th/ ARB 4x4 Accessories/ To meet the voracious demands of the diesel dragsters, sled pullers and four-wheelers alike, ARB is proud to include this impressively strong new model in their Performance Air Locker Series. Designed for the 2000-06 GM 2500/3500 models and the 2003 and newer 2500/3500 Dodge Ram, this new 52 pound behemoth is the first of a new breed of heavy torque handling Air Locking differentials.

ARB's patented 2-piece case design is manufactured from heavy cross sectioned nodular iron castings for virtually unbreakable strength and has been designed so that the side gears can be optionally upgraded to 35, 37 and 40 spline shafts. These higher splined side gears will be available in spring 2010.

As with all of ARB's Performance Lockers, the RD139 features ARB's patented Timed Gear Technology, which offers the highest locking strength while maintaining split-second unlocking ability. The steel reinforced, bonded seal has been designed to handle the most extreme climactic temperatures on earth complementing the competition bred strength of the locker.

The RD139 is a huge locker that can handle huge power. How much power? Our computer modeling suggests that this locker will handle upwards of 5 times more torque than the OE differential. We had to increase the torque load for two reasons - first, to handle the extreme load generated by the extra traction achieved when this differential is locked, and second, so that ARB could offer future swap-in axle upgrades to higher torque shafts.

We can honestly say that the RD139 will not be the weak link in your drive train.

The 30 spline, AAM 11.5" Air Locker is available through any ARB retailer by ordering ARB part number **RD139**. To find an ARB Dealer near you, visit the [ARB Dealer locator](#).

Application	Description	Part Number	Suggested Retail
2003+ Dodge Ram 2500/3500 2000-06 GM 2500/3500	Rear AAM 11.5", 30 Spine Air Locker	RD139	\$1,063.30

ARB Air Locker Features

- Puts the power to the ground at both wheels all at the push of a button.
- Provides 100% traction on demand without affecting on road drivability or driveline wear.
- Vastly improved traction means less reliance on momentum, which reduces the likelihood of vehicle damage or environmental impact.
- Easy, convenient operation allows the user to concentrate on the terrain without leaving the comfort and safety of the driver's seat.
- Ultra durable and extremely strong - only the highest quality materials used in construction.
- Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- Thoroughly tested and proven design - trusted and used in over 100 countries around the world.

About ARB

ARB Corporation Limited is Australia's largest and industry leading manufacturer and distributor of quality, 4WD vehicle accessories, with distribution in more than 100 countries worldwide. The company manufactures and stocks the worlds most respected and sought after brands including ARB Air Locker locking differentials and bumpers; Old Man Emu (OME) customized suspension systems, IPF high performance lighting, and Safari snorkel systems. ARB's Seattle office is the North, South & Central American headquarters and importer of ARB 4x4 Accessories.
