FOR IMMEDIATE RELEASE

ARB Air Locker Test Gauge

Seattle, October 20/ ARB 4x4 Accessories/ The Air Locker Test Gauge has been designed as an easy and effective way to determine the supply pressure and/or detect a loss of pressure in the air system of the ARB Air Locker or the ARB Air Compressor. It simply connects between the existing airline, and a “shop air” constant supply of up to 150 PSI.

Note: The Air Locker Test Gauge was previously offered as ARB part number ‘ALT01’ and is being re-released as a part of ARB’s new Air Locker Tools range of differential service/installation equipment.

Features:

- Works with any model of ARB Air Locker
- Is quick and easy to use
- Requires no special tooling
- Push in fitting is removable for use with other 1/8” BSP fittings to suit a range of tube sizes (5mm supplied)
- Comes with an accurate European made pressure gauge

Specifications:

- Weight: 8.3oz (235g)
- Maximum input air pressure 150 PSI
