FOR IMMEDIATE RELEASE

IPF 968CSG

Introducing the upgraded 968 Light Kit

Seattle, September 23/ ARB 4x4 Accessories, Australian based 4x4 Accessories manufacturer is proud to release a new and improved six-inch driving light. As the exclusive distributor of IPF Performance Lighting Systems, ARB had this light specifically designed to suit the needs of ARB fans. Featuring a hybrid reflector lens, black body and grill guard with silver insignia, this new light offers the perfect balance of spot and driving beams.

This multi-application driving light features a “double reflector” that functions as two separate reflectors. A sub-reflector within the lamp provides a broad fog beam in front of the vehicle while the main reflector projects a driving beam that illuminates the road far ahead. The combination of beams creates the most universal light pattern for any driving situation. The 55 watt H3 bulb (optional 100w included) shines brilliantly through the clear, hardened glass lens.

The IPF 968CSG kit includes a pair of lamps, complete snap together wiring loom with relay, a mouse style switch, and black grills.

These lights are competitively priced and are an exceptional value for such a high quality auxiliary light. The 6” diameter lens, encased in a black body with black grill will look great on the front of any vehicle.

These lights are currently in stock and are available from ARB distributors nationally.

| DESCRIPTION | PART NO. | RETAIL |
|--|----------|----------|
| IPF 6” Round, High Performance Light Kit w/Black Grill Guard | 968CSG | \$156.68 |
